FOR YOUR SATISFACTION FALL'04

ABOUT US – The airline experience. It's that stomach tingling sensation every time the jets roar and you are strapped in your jump seat; or that sense of power as you open the throttles; or the presence when it approaches that swallow you whole. Maybe it's the awe you feel when you are next to it. Or the rush you get every time you see the excitement in a traveler's eyes, knowing that you feel the exact same thrill. You remember your heart beating out of your chest the first time you walk down the jet bridge and the unforgettable smell that lingers. As you mutually embrace the indescribable airline experience with those around you, you feel like you are the luckiest person on the planet. And so began **CREW TAG** in 2004. We exist to permanently instill the travel happy bug on the airline experience. Our products and personality reflect the humor, optimism and travel happy attitude to bring back the excitement, allure and glamour of being and working on an airline. There is no secret, just combine the 1950's glamour of international travel, mix in with deregulation of the 1970's to provide access. Let the experience grow like the jet setters in the 1980's. Then, add a dash of the 1990's profitability. Finally, the fast approaching space bound airline of the future completes the whole spirit of **CREW TAG**. Welcome to the community. We hope you enjoy our designs and philosophy. See, feel, touch, taste and do what the Wright Brothers pioneered for mankind. Cabin Crew, please arm doors for departure. Cross Check.

Und so beginnt die Geschichte von CREW TAG im Jahr 2004. Uns gibt es, um die Freude am Reisen beim Fliegen ständig zu nähren. Unsere Produkte und Personen spiegeln den Humor, den Optimismus und die Reiselust um diesen Zauber, Glamur und die Aufregung des Seins und des Arbeitens in einem Flugzeug zurück zu bringen. Es gibt kein Geheimnis, verbinde lediglich den Glamur des internationalen Reisens der fünfziger Jahre mit den Freiheiten der Airlines in den siebziger Jahren. Lass nun diese Erfahrung wachsen wie die Jet Seters in den achtziger Jahren. Dann füge einen Schuss Rentabilität der neunziger Jahre hinzu. Schließlich und endlich führt das der Gegenwart immer näherkommende Raumflugzeug der Zukunft zum ganzen Elan und Geist von CREW TAG. Wir heissen Sie willkommen und hoffen, daß Sie unsere Designs und die Philosophie mögen. Sehen Sie, fühlen Sie, berühren Sie, riechen Sie und tun Sie, was die Wright Brüder für die Menschheit an Pionierarbeit geleistet haben. Cabin Crew, please arm doors for departure. Cross Check.
